FULL STACK DEVELOPER | FRONT END DEVELOPER

I am a solutions based Software Engineer with over 10 years of experience in photography, where I developed strong communication, problem-solving, and client-focused skills. This foundation has made me detail oriented, forward thinking, and a collaborative and independent team player. Now, as a front end and back end developer, I blend being a continuous learner with creativity and technical expertise to produce innovative, user-friendly, and engaging projects that balance functionality and design seamlessly.

SKILLS

Languages: JavaScript, HTML, CSS, Typescript, Python, Svelte, React

Libraries / Frameworks: Express, Jquery, Bootstrap, Flask, Django, Tailwind CSS, Git

Databases: JSON, API, MongoDB, Postman

Interpersonal skills: Expert in communications, resourceful, problem solver, self-motivated learner.

TECHNICAL PROJECTS

Glux Photography - [Github](#) | [Deployed Site](#)

July / 2024

ReactJS | Tailwind CSS | Javascript | HTML | CSS | Framer Motion | EmailJS

Freelance project for Glux Photography. This is a multi-page photography website showcasing different features that make the website attractive and modern.

- Utilized **React Photo Album** and **Yet Another React Lightbox**.
- Incorporated **Framer Motion** to have fade-in, fade-out features when going to a new page.
- Created a functional contact form using **emailJS**.

Mileage Tracker - [Github](#) | [Deployed Site](#)

October / 2023

Python | Flask | Javascript | Svelte | HTML | CSS

Mileage Tracker makes it easier for drivers to keep track of their own miles while making sure they are getting reimbursed the correct amount.

- Developed a full CRUD app to create individual trips to track mileage.
- Created the ability to calculate a refund amount based on miles traveled and cost per mile.
- Adopted mobile-first technologies with Flexbox to create a responsive design.

Job Application Tracker - [Github](#) | [Deployed Site](#)

October / 2023

Python | Django | Neon | Javascript | React | React Router DOM | Milligram | HTML | CSS

Job Application Tracker helps keep you organized when on the job hunt by keeping a log of all the necessary information for each application you've submitted.

- Created a full CRUD application.
- Applied checkbox and date features.

Personal Jukebox - [Github](#) | [Deployed Site](#)

September / 2023

Javascript | HTML | CSS | Morgan | CORS | Mongoose | API | React | Express | NodeJs | OAuth

As a user of Personal Jukebox App you can add your favorite albums with additional information such as artist name, year released, album cover, and link to the playlist.

- Developed a React app using a MERN stack.
- Utilized OAuth for personal login, username, and password functionality.
- Provided ability to upload a youtube link / playlist or your personal Spotify account.

Photo-Assistant - [Github](#) | [Deployed Site](#)

August / 2023

Javascript | **HTML** | **CSS** | **Express EJS** | **JSON** | **OAuth**

Photo Assistant is an app that helps photographers log important information about Wedding Venues they've worked at.

- Developed a full CRUD app.
- Implemented OAuth for personal login, username, and password functionality.
- Created ability to upload images, URL, and comments section.

Starwars App - [Github](#) | [Deployed Site](#)

June / 2023

Javascript | **HTML** | **CSS** | **API**

Traverse through an encyclopedia of nearly all aspects from all the Star Wars movie collection, to explore facts about Characters, Vehicles, Starships, Species, and movie information.

- Connected to outside API using jQuery providing different possibilities to present the data.
- Improved User Experience by creating a loading screen, informing users their request is processing.

EXPERIENCE

General Assembly -

Certificate of Completion 10/2023

Software Engineering Immersive - Remote

Full-stack software engineering 420+ hour program focused on product development fundamentals, object-oriented programming, MVC frameworks, data modeling, and team collaboration strategies.

Media Manager

2018 - 2020

Cancer Wellness Magazine | Chicago, IL

- Collaborated with non-profit organizations to design and produce multimedia content, enhancing web presence and engagement.
- Created over 50 videos for social media to produce dynamic and engaging content.
- Played a key role in increasing Cancer Wellness' social media followers to 10,000 by creating compelling videos and web content.
- Managed multiple projects simultaneously, ensuring timely delivery and maintaining high standards of quality.
- Stayed up-to-date with industry trends and applied best practices in multimedia content creation.

Media Associate

2018 - 2018

CMRJB Workers United Labor Union | Chicago, IL

- Designed and produced training videos for 20,000 Union members across 5 cities, enhancing the onboarding process and unifying the Union across 5 states.
- Managed and updated social media accounts and the website creating daily posts and maintaining a dynamic online presence.
- Photographed and captured video of Union events and uploaded images to their social media.
